

Canada's Premier Renewable Energy Supplier & Installer

42 Alice Street, Brantford, Ontario, Canada, N3R 1Y2, P: (519) 752-6939 F: (519) 758-9760, www.npp.ca

Renewable Energy Specialist

Brantford, ON

Number of Positions: 1 full time permanent

Summary of Position:

As a Renewable Energy Specialist you will play an instrumental role in building the business practice. You will participate in sales, site assessments and product installations. You will ensure installations are performed based on the contract with the customer. You will also assist in determining eligibility and submitting required paperwork for grants. Installations may include any of the renewable energy technologies.

Detailed Duties:

- Assisting in customer support and sales
- Assisting at trade shows/markets/special events
- Site assessments and site inspections or maintenance
- Consultation with customers to determine their best options
- Design and quotations of customer systems
- Various product installations
- Cross-training new staff
- Some travel required, and some evenings or weekends.
- Other tasks as designated by manager

Qualifications:

- Excellent communication skills, oral and written. Comfortable with public speaking
- Comfortable working at heights. Already has or willing to obtain Fall Arrest certificate
- Renewable Energy Technician or Technologist program completed, or equivalent experience
- Familiarity with current incentives and the application processes
- Autocad, MS Office, and Retscreen experience required.
- Can handle pressure, multitask, and enjoys a lot of variety.
- Able to lift 60 lbs. repetitively, such as solar PV installations.
- Able to work independently, and motivated to meet deadlines while ensuring quality.
- Capable of reading basic blueprints, with attention to detail.
